

INSURGENTS GATHER NEAR SAN FERNANDO

AGUINALDO SEEMS TO BE PREPARING FOR BATTLE.

Gen. MacArthur's Forces are Likely to Have an Early Engagement—Otis Sends a Long Report Dealing With the Conditions in the Philippines.

Manila, June 28.—The insurgents are again collecting in considerable force in front of San Fernando, and another engagement with the Americans is likely to take place very soon. Gen. MacArthur now has a small army in the field there, including the Seventeenth and Nineteenth regiments, a portion of the Twenty-second Iowa volunteers, the Montana volunteers and a part of the Third artillery. The Twelfth regiment of regulars is now on the way from Manila.

The United States transports Grant and Hooker reached Manila this morning.

GEN. OTIS MAKES A LONG REPORT.

Campaign in the Philippines Hindered by the Rainy Season.

Washington, June 27.—Gen. Otis in reply to a cable from the war department asking for information regarding situations and conditions in the Philippines, Monday cabled a long reply as follows:

"Manila, June 26.—Adjutant General, Washington: Rainy season. Little inland campaigning possible in Luzon. We occupy large portion Tagalog country, lines stretching from Imus south, to San Fernando north, nearly sixty miles, and to eastward into Laguna province. Insurgent armies have suffered great losses and are scattered; only large force held together about 4,000 in Tarlac province and northern Pampanga. Their scattered forces are in bands of fifty to five hundred in other portions of Luzon; in Cavite and Batangas provinces could assemble possibly 2,000, though demoralized from recent defeat. Mass of people terrorized by insurgent soldiers, desire peace and American protection; no longer flee on approach of our troops unless forced by insurgents, but gladly welcome them. No recent burning of towns. Population within our lines becoming dense, taking up land cultivation extensively; kept out of Manila much as possible, as city population is becoming too great to be cared for.

"Natives southeast of Luzon combining to drive out insurgents; only hope of insurgent leaders is United States aid. They proclaim near overthrow of the present administration, to be followed by their independence and recognition by United States. This is the influence which enables them to hold out; much contention prevails among them and no civil government remains.

"Trade with ports not in our possession, a former source of insurgent revenue, now interdicted; not certain of wisdom of this policy, as people in those parts are without supply of food and merchants are suffering losses; meditate restoring trade privileges, although insurgents reap benefits. Courts here in successful operation under direction of able Filipinos. Affairs in other islands comparatively quiet, awaiting results in Luzon. All anxious for trade, and repeated calls for American troops are received. Am giving attention to Jolo archipelago, and Palawan islands.

"Our troops have worked to the limit of endurance. Volunteer organizations have been called in and replaced by regulars, who now occupy salient positions. Nebraska, Pennsylvania and Utah now taking transports, and Sixth infantry sent to Negros to relieve California. These troops are in good physical condition; sickness among troops has increased lately, due mostly to arduous service and climatic influences. Nothing alarming.

"Of the 12 per cent of the command reported sick nearly 6 in general hospital, of whom 3 per cent have typhoid and 17 malarial fevers; 25 per cent have intestinal trouble; remaining 55 per cent have various ailments, 14 of which are due to wound injuries. Many officers and men who served in Cuba break under recurrence of Cuban fever, and regular regiments received are inadequately officered.

"OTIS."

The inadequacy of the number of officers mentioned in the last part of the cablegram has been remedied by the sailing of the transports Zelandia and Sheridan, carrying a number of officers for regiments in the Philippines.

Adj. Gen. Corbin says all officers belonging to regiments in the Philippines who are not absent on account of a surgeon's certificate are under orders to join their regiments at once. Forty-four have sailed on the recent transports going to Manila.

Secretary Alger said that no action will be taken for the enlargement of the army or sending troops to re-enforce Gen. Otis until the return of President McKinley. He also said that Gen. Wheeler would receive no assignment until that time.

COMMANDER OTIS HEARD FROM.

Asks but 30,000 Effective Troops in the Philippines.

Washington, June 27.—Secretary Alger received a dispatch from Major Gen. Otis Monday in which that

cial reiterated that 30,000 effective men will be sufficient to enable this government to control the Philippines. This dispatch was not made public, and will be laid before the president when he returns to Washington. It will doubtless be considered at the cabinet meeting if the president determines to call his official family together. As a result of its receipt a cabinet officer asserted that it meant no volunteers would be raised.

Part of 80th Kansas Sent Home.

Kansas City, Mo., June 27.—A special cablegram to the Star from Manila, via Hongkong, June 25, says: "Capt. Clarke, Capt. Watson, Lieut. Ball and 200 sick or wounded from the Twentieth Kansas regiment have been sent home. Only 450 men are still doing duty. These are on the firing line. The other members of the regiment are relieved from duty on account of sickness."

The Kansas regiment's normal strength is about 1,200 men. With 200 sick on the way home and 450 on the firing line, 550 are left among those "unfit for duty."

Regulars Relieve Volunteers.

Manila, June 27.—The Montana and Kansas volunteers are returning from San Fernando, and the Twelfth and Ninth regulars will replace them.

Fulton.

Fulton, June 27.—Although the proceeds from the district school entertainment at Cookville were not large, all felt repaid for their toil. Mrs. Harriet Ely and children, have returned from Beloit, where they have passed the last school year. Mrs. Ely is the possessor of a fine new piano. There are rumors of matrimonial intentions on the part of some of our young people. The board of review met at the store of H. W. Lee Monday. Wednesday evening the Improvement society meets with Mrs. Brown. Mrs. Fannie Fessenden has been very ill, but is improving. Dr. Shepard is attending her. Orpha Fessenden is building a barn and tobacco shed.

Mrs. Taylor is visiting her sisters, Mrs. Nellie Green and Mrs. Scofield. Miss Blanche Scofield is spending her summer vacation at home, after a year at school in Iowa. Mrs. Rowell, the wife of a former pastor, is visiting with friends and renewing old acquaintances. Wilfred Rowell, having finished his collegiate course at Beloit, is visiting friends in this vicinity. Miss Busha Pease left for Kenosha last Saturday to visit friends. After her visit there she is going to New Jersey to visit friends and relatives. The Christian Endeavor young people conducted the service last Sunday evening in the absence of the pastor. Singing was accompanied by the orchestra, and responses were prompt and to the point. The meeting was led by Mabel Lee. Ben. Peach has been quite sick for a day or two. The Sunday morning services were as usual, with exceptionally good music and an interesting discourse from our pastor, urging young people to the higher education of mind and also spiritual growth. Next Sunday evening the Christian Endeavors of Fulton, unite with the Edgerton society and other societies, in a rally. There will be no services in the home church in the evening. The church sewing society has been reorganized, and nimble fingers are again at work earning needed pennies. The society meets with Mrs. Pease. Harriet Lee has gone to Janesville to remain a few days visiting friends.

Turtle.

Turtle, June 27.—A very pleasant evening was spent at the home of Mr. and Mrs. Thomas Cox, the occasion being the birthday of both Mrs. Philo Bestwick and Mrs. Cox. The evening was spent in playing games and partaking of refreshments. Both were presented with a beautiful rug and an ottoman, the gifts of the company. Mr. Joe Humphrey making the presentation speech. Other personal presents were made. Mr. Cox's aged mother was present, being eighty-six years old.

Difficult to Stop.

Experiments seem to show that a large ocean steamer, going at nineteen knots an hour, will move a distance of two miles after its engines are stopped and reversed, and no authority gives less than a mile to a mile and a half, as the required space to stop its progress. The violent collisions in some cases during fogs may thus be accounted for.

WILD MAN CAPTURED IN NORTHERN WOODS

GAZED AT BY MANY AT CHIPPEWA FALLS.

Wandered Into Town of Tony, a Small Town on the Soo Road—Authorities of Dodgeville Think They Have Officer Primelow's Slayer—State News.

Chippewa Falls, June 27.—A wild man was captured in the woods forty miles north of this city and placed in the county jail last night. He is about 70 years of age and has lost nearly all semblance to a human being. His hair and beard are about a foot long and his clothes consists of a solitary gunny sack wrapped around his body and a pair of overalls, also a coonskin cap. Many persons went to the jail to gaze upon him. It is impossible to hold conversation with him as he has lost all knowledge of speech and is undoubtedly an imbecile. This strange creature wandered into Tony, on the Soo road and was taken in charge by the marshal there.

From appearance he has lived the life of a hermit in the wilderness for many years. He will be examined and sent to an asylum.

Sandwich Men.

The walking advertisement known as a "sandwich man" is by no means a modern idea. In 1346 a procession of men dressed to represent straw-covered wine bottles used to parade the streets of Florence, Italy, being hired by the wine merchants there.

An Editor's Apology.

A new editor having taken charge of the Gallatin North Missourian, the following apologetic notice appears in the first issue published under his management: "Attention has been called to one blemish upon our record, and of a term in the Missouri legislature, but we can offer as an extenuating circumstance the fact that when an attempt was made to give us another term we were acquitted by a very large majority."

SUDDEN RETURN OF PRESIDENT M'KINLEY

ATTRIBUTED TO THE ILLNESS OF HIS WIFE.

Alger's Telegram Yesterday, It Is Said, Suggested the Advisability of Considering Grave Questions That Have Arisen—Situation in Philippines Responsible.

Washington, June 27.—[Special]—The president and party arrived from New England this morning. Mrs. McKinley looks pale, and as if she was suffering severely.

Grave Questions Arise.

Washington, June 27.—[Special]—It is announced that the sudden return of President McKinley is attributed to his wife's illness, but the situation in the Philippines is probably primarily responsible.

Secretary of War Alger's telegram yesterday, it is said, suggested to the president the advisability of at once considering the grave questions that have arisen.

A Change of Heart.

"I didn't use to go much on charity," said the grocer who had given a tramp a dime, "but something happened to convince me that it was my duty to relieve the distressed. About two years ago a tramp struck me for a nickel and I gave him the boot. In wandering around he struck my house and my wife gave him ten cents. He invested five cents of it in a gimlet and that night he bored holes in three barrels of kerosene standing at the door and let the last drop out. That set me to thinking, and I've been helping my fellowmen ever since. Its only five or ten cents at a time, you know, and it saves heaps of kerosene and lots of cussing."

Flowers and the Face.

Women with faded complexions should go slow in putting vacanthine blue or corn flowers on their hats. This beautiful shade of blue seems to develop all the latent sallowness in the skin. "After 25," as a great actress declares, "color is more becoming beneath the face than above it." Vivid-colored artificial flowers are extremely trying to all but youthful cheeks. Flowers have not the softness of tulle, velvet or ribbon. Often the same color can be worn with impunity in these materials, where in stiff flowers it would damage one's good looks.

The British Farmer.

A retired farmer, after returning from a continental tour—on which he had long set his heart—was narrating one evening to his friend, the doctor, how he had visited "the majestic lake of Geneva, and trodden the banks of Blue Leman." "Excuse me," interrupted the doctor, "Lake Geneva and Lake Leman are synonymous." "That, my dear sir," replied the farmer, "I know very well; but are you aware that Lake Leman is the more synonymous of the two?"—Pearson's Weekly.

Small Valuation.

"Do you regard Silas Woodruff as one of the important people in Canby?" asked a summer visitor, referring to a member of the state legislature whose home was in the little town. "I hear he can talk up to the folks on politics," answered the Canby farmer to whom the question had been addressed, "so I reckon he's some use to the state, mebbe; but in Canby we don't count him of any more value than a couple of rods of side hill."—Youth's Companion.

CLAN-A-GAELS TO HELP THE BOERS

St. James Gazette Prints Sensational Story.

ADVISES THE TRANSVAAL SOLDIERS TO RESIST ENGLAND.

The London Paper Says Numerous Emisaries in New York, Philadelphia and Chicago Have Gone to South Africa to Counsel the Population of Dutch Descent—Chamberlain Denounces Misgovernment in the South African Republic—British Prestige Among the Natives Interfered With.

London, June 27.—[Special]—The St. James Gazette prints a sensational article today in which it is alleged that numerous Clan-na Gael emissaries in New York, Philadelphia and Chicago have gone to South Africa, to counsel the Boers to resist England to the utmost and promising companies of volunteers to serve with the Transvaal troops.

London, June 27.—Mr. Joseph Chamberlain, secretary of state for the colonies, made an important speech at Birmingham last night in reference to the Transvaal crisis, the kernel being a declaration that the government accepted full responsibility for all that Sir Alfred Milner, British high commissioner to South Africa, had done, and was determined to support him.

Mr. Chamberlain contended that the misgovernment of the Transvaal was "a festering sore, that was poisoning the whole political atmosphere of South Africa." The manner in which British subjects were oppressed and harassed, he said, interfered with British prestige among the natives, who now regarded the Transvaal as the paramount power in that part of the world. The position could not be allowed to remain indefinitely as at present.

Mr. Chamberlain added that he did not believe anybody in Great Britain wished to quarrel with the Transvaal, but a vast majority recognized that the substantial grievances of the Boers must be redressed. If his might judge from the European and American press, he believed that if President Kruger remained unapproachable to argument he would not have a single supporter in the civilized world.

Army Review at Aldershot.

London, June 27.—The queen and many princes and princesses were present on the famous plains of Aldershot Monday to witness a review of 18,000 of the best troops in the kingdom. This review is interpreted in London as a means of satisfying Queen Victoria that her troops are ready for any emergency they may be called upon to meet—in the Transvaal.

A SEVERE EARTHQUAKE

Two Shocks Felt Throughout the State of Connecticut Last Night—People Rushed Into Streets.

Hartford, Conn., June 27.—[Special]—Two severe earthquake shocks were felt all through the state last night. The first made a noise like a thunder clap and at the same time there was an upheaval of earth.

People feared their houses would be overthrown and rushed into the street. The second shock was light.

A Rat's Tail.

There are more muscles in the tail of a rat than in the hand of a man. Just think how many muscles that must be. Look at your hand and count how many movements you can make with it. Every finger can be moved forward and backward and from side to side, every joint has its own separate movements, the wrist can be moved in any direction you please, and for each little motion there is a separate set of little muscles, each one of which will do just what you want it to do. The rat's long tail is just as handy to him as our hands are to us. By its use he crawls along narrow ledges and holds on tightly with it. He uses it, too, in jumping, and can jump to a great height, for a rat, in this way.

Little Sunfish.

When little Mrs. Sunfish is laying her eggs she will fight anything that comes near. Down in a sheltered place she hovers over her nest until by-and-by a big, ugly carp comes along and makes up his mind to make a meal of fish eggs. Then the plucky little sunfish darts out, and, with a rush, runs square under the big carp, trying to cut it with the sharp fin on its back. Two or three sharp cuts of this kind makes the chummy carp change his mind about sunfish eggs and he leaves in a hurry, being lucky if he gets away with a whole skin. Then the little sunfish goes back to its nest to watch for the next hungry enemy.

COLLEGE BAND GIVE CONCERT AT MILTON

MANY PRESENT TO LISTEN TO
THE MUSIC.

Public Session of the Philomathean Society Held Monday Evening—Rev. E. H. Socwell, of Welton, Iowa, Delivers Address—Demise of D. W. Shaw at Mendota Hospital.

THE GAZETTE AGENCY
W. W. CLARK, Manager,
Milton, Wis., June 27, 1899.

The concert by the College band Saturday evening was well patronized, but would have put much more money in the pockets of the management had they been able to collect from those outside of the church, who were too penurious to pay an admission fee and thereby help support a creditable organization. The band rendered their numbers well, the instrumentation being well balanced, the tones good and the execution well balanced. The selections for violin, flute, cornet and organ were gracefully rendered, but rather classical in their makeup, in fact too artistic for appreciation by the majority of the audience. Miss James, the whistling soloist, is an artist in that line and achieved a great success. She is far superior to anyone who has appeared here. The following was the program:

Overture—Narragansett.....Dalbey Band.
March—Palatinus.....Hall Band.
Selection from Traviata.....Verdi.

HOME NEAR CLINTON DESTROYED BY FIRE

VALUABLE PROPERTY OF JOHN
BRADT, A FARMER.

Loss Estimated at \$3,500—Fire Oc-
curred Sunday Afternoon—Origin
Unknown—United Workers Give
Pleasant Social—Frank Cobert Dies
After Three Days' Illness.

Clinton, June 27—The residence of
John Bradt, a prominent farmer living
four miles northwest of here, was totally
destroyed by fire between 2 and 3
o'clock Sunday afternoon. The origin
of the fire is unknown, as no one was in
the house at the time, but a fire had
been left in the kitchen stove to cook a
kettle of meat, and it was here the blaze
was first noticed. Mr. Bradt had left the
house twenty minutes before, and was
ten or fifteen rods away, talking with a
neighbor who happened along the road,
when his attention was called to smoke
which was issuing from the rear of the
house. But little of the goods were
saved, as the flames spread with great
rapidity. Mr. Bradt suffered severe
burns on his hands, besides having his
hair and whiskers scorched in attempt-
ing to remove some of the furniture.
The loss is probably in the neighbor-
hood of \$3,500, and the building was
insured in the La Prairie Fire Insurance
company. The United Workers of the
Congregational church held one of the
most pleasant and largely attended so-
ciables in the history of that organiza-
tion, at the residence of Hon. and Mrs.
S. S. Jones, on Friday afternoon last.
The spacious and neatly trimmed lawn,
with its stately trees surrounding the
Jones homestead, make it an ideal coun-
try spot for social affairs in pleasant
weather. The supper, which was par-
taken of at six o'clock, was pronounced
one of the best ever held. A rare treat
in the way of entertainment was furnis-
hed by the male quartette of the North-
western university, who happened to be
present. Over \$17 were realized from
the slight charge of 10 cents for each
person. A number were present from
Emerald Grove. Frank Cobert, a young
man who worked for Herman Rogers,
died Wednesday after an illness of but
three days, from the effects, it is said,
of eating a quantity of cherries and
drinking milk. The funeral took place
Friday, the body being interred at
Delavan. The house opposite the M. E.
church, vacated by Charley Wright and
family, at 3 p. m., Friday, was burned
to the ground at 11 o'clock that night.
A large crowd quickly gathered, but no
effort was made to put out the blaze.
The fire company got out their hose to
protect adjoining property should it be-
come necessary. No value was attached
to the burned building as it was in an
extreme state of dilapidation. A new
boy has been stopping at Dr. Jones'
place since Saturday night. His par-
ents, Mr. and Mrs. Harry Holmes are
receiving the congratulations of their
friends. A. P. Preble arrived Friday,
having driven out from Chicago, leaving
the day before. A good sized audience
greeted Rev. Moore Sunday morning,
his sermon to the Masons being on the
"Oneness of Humanity." The
fraternity attended in a body,
occupying the center of the house.
George Meloy, son of Loren Meloy, of
Tiffany, has arrived in San Francisco
from Manila. He is in the hospital in a
very weak and emaciated condition. It
is sincerely hoped that he will recover
and be able to reach home. Mr. Meloy
was among the first troops to leave
for the islands, and has seen hard
service. Mr. Swartz's mother will visit
here for a time. Mesdames Fitch and
Ransom drove over from Emerald Grove
Saturday. A. E. Weaver, of Darien,
was here Friday. C. A. Benedict is
baling large quantities of straw and
hay with his steam press. Mr. and Mrs.
F. R. Helmer are spending a couple of
days with Milwaukee friends this week.
At a meeting of the Alumni Association
held Saturday evening all new officers
were elected. They are: President, Mrs.
Charles Hamilton; vice president, Miss
Maudie Wilkins; treasurer, Miss Ethel
Kemmerer; secretary, Miss Margaret
Moore. Mr. Stone, of Chicago, father
of Mrs. L. L. Olds, was here over Sun-
day. Wm. D. McArthur and wife ar-
rived here Thursday from California to
attend the funeral of Mr. McArthur's
mother at Emerald Grove. Charley
Patchen is clerking in Delavan at pre-
sent. J. B. Anderson is buying lots of
grain and corn these days. The market
is considerably improved. Our veteran
harness maker, H. B. Colgrove, is
spending a few weeks with relatives in
Eau Claire. Mrs. S. A. Kennedy is visit-
ing her daughter at Watford. Miss
Laura Rice has gone to Minneapolis for
a vacation visit with her brother's fam-
ily.

There's nothing in Ivory Soap but soap, good, pure vegetable-oil soap. There's nothing to make the linens streaky, no alkali to injure the finest textures. The lather forms quickly and copiously, and wash-day is a pleasure instead of a drudgery. Try it for the next wash. The price places it within reach of every one. Look out for imitations.

THE CZAR'S PLAN TO FAIL.

Latest German Declaration Makes Success Impossible.

The Hague, June 27.—Col. Gross Von Schwarzhoff startled the peace conference Monday by his frank announcement that Germany would never agree to a pledge against increasing armament. He explained the Kaiser's positive rejection of the czar's proposition by saying that the increase in military and naval effectiveness could not alone show a nation's offensive power, and that, while means of transportation and ability to mobilize an army were improved, it would not be fair to block one branch of the work.

This declaration, it is feared, ends the possibility of agreement.

Suicide No Bar to Payment.
Kansas City, Mo., June 27.—Judge Phillips, in a decision in the case of Rosa B. Jarman against the Knights Templars and Masons' Life Indemnity company, held first that under the statute governing assessment insurance companies it was no defense against the payment of the policy that the insured committed suicide, unless it was shown that he contemplated suicide at the time he was insured; and, second, that changes in the rules of the company made after the policy was taken out would not affect the payment of the policy.

Lawyers have estimated that this ruling will cost assessment companies at once about half a million dollars.

Jesuit Convent Attacked.

Madrid, June 27.—A serious riot occurred Monday at Saragossa. A mob attempted to set fire to the convent of the Jesuits, and while the civil governor was trying to appease the rioters he was shot at, but escaped without injury. Martial law has been proclaimed in the city. The trouble arose from a demonstration against the new taxes. There was a passive demonstration here and in most of the important cities of the country.

Butterline Makers Must Pay.

Rome, N. Y., June 27.—J. J. PRESIDENT MCKINLEY

USES TOO MUCH TOBACCO

According to a writer in the Boston Globe President McKinley's trip to Hot Springs, Va., was taken for the purpose of getting rid of nicotine. This writer goes on to say: "No man of prominence in American life since Gen. Grant has been so industrious a cigar smoker as Mr. McKinley. He smoked all day long."

MILLIONS OF MEN smoke ten to twenty cigars a day without any bad effect. Some tobacco contain too much nicotine, hence that dull feeling after smoking. The "J. K." Cigars are made from the finest selected and cured domestic tobacco, contains less nicotine (tobacco poison) than any tobacco grown. It is a mild, free smoke, rich in aroma, equal to most ten-cent cigars and better than any half-price cigar made. At druggists and cigar dealers.

MUZZLE THE COPPERHEADS

The "anti-imperialists" should read General Otis' dispatch concerning the hopes of the Filipinos with pride. The American who gives such encouragement to the enemies of his country should be proud of the record!

The Filipinos rely on these copperheads to overthrow the American government. Then they expect to have the United States recognize the Filipino republic. Thus the copperheads are not only encouraging the Filipinos to kill American soldiers, but raising false hopes within them, as to the ultimate condition of the Tagals.

Every sane man knows that these false hopes will never be realized. Every day that the strife is prolonged adds to both the American and the Filipino losses, and the copperheads are responsible for the situation in a very large degree.

Isn't it about time the American government took these copperheads in hand? How long are we to sit idly by while our soldiers are fighting a foe that rests its case on the hope that the Americans are with them? Is it just to the American soldier to allow this agitation to continue. And is it just to the Filipinos?

Treason is treason. A man's first duty is to his country. This is no time for theorizing. It is important that the Filipinos should be conquered at once. It is also important that their copperhead allies in the United States be silenced, and the government should spare no expense or effort to achieve both ends.

The constitution guarantees free thought and free speech, but it doesn't guarantee immunity from prosecution for offences against its own provisions, either in the letter or the spirit.

Conquer the Filipinos and muzzle the copperheads!

WISHES OF THE CUBANS

According to Senor Manuel F. Martinez, a Cuban, the intelligent Cubans desire annexation, want statehood for Cuba, freedom of religion and American immigration. The first thing they want, he said, is that Gen. Fitzhugh Lee, who understands them and whom they love, shall be appointed Governor of Cuba. He said he had special cause to love Gen. Lee. When confined by Gen. Weyler in the fortress of Cabanas and hourly expecting death, Gen. Lee visited him.

When the General left Martinez told him good-bye, adding that he would probably never see him again. Gen. Lee replied: "How will you have your steak for supper, rare or well done?" The American Consul, at Gen. Lee's instigation, he said, came and shared his prison for a few hours until Gen. Lee compelled Weyler to release him. Martinez says annexation is inevitable and the sooner it is accomplished the better suited the Cubans will be.

When congress passed a bill to admit Oscar W. Deignan to Annapolis, provision was made requiring him to pass the usual examination. Deignan, however, has no money to take the necessary preparatory course, and has given up the idea of entering the naval academy. He will seek a place in the life-saving service at Milwaukee.

Chicago clothing manufacturers are fairly swamped with orders, and are jubilant over the outlook. Retail merchants are equally happy, while the men who have the money to buy new suits are wearing pleasant smiles too. What could be a surer sign of a healthy business condition throughout the country?

The Fourth of July will be celebrated in Porto Rico, with all due formalities. Persistent to request fireworks will be admitted to the island free of duty and our new citizens can burn rockets and pinwheels to their hearts content.

When Admiral Dewey was twenty-seven years of age, he wore a set of side whiskers. This fact should not be allowed to weigh against him now, however.

A short time ago General Miles recommended that 5,000 men, in command

of some cheap officer be sent to conquer the Philippines. Now he wants to go over himself, with an army of 65,000 men. Great is General Miles.

General Miles and Aguinaldo are both experts in the interview and proclamation business. Why not furnish each with a typewriter and let them fight it out?

JUDGE FOR YOURSELF.

Which Is Better, Try An Experiment Or Profit by a Janesville Citizen's Advice?

Something new is an experiment. Must be proven to be as represented. Be successful at home or you doubt it.

The statement of a manufacturer is not a convincing proof of merit. But the endorsement of a friend is. Now, supposing you had a bad back. A lame neck or aching one. Would you experiment on it? You will hear of many so-called cures.

But they come from far away places. Its different when the endorsement comes from home. Easy to prove that it is so. Home endorsement is the proof that backs every box of Doan's Kidney Pills.

Read this case: Mr. Samuel Griffin, of 203 Locust St., journeyman carpenter, says: "I had a severe attack of kidney trouble some time ago, and as the result of this sickness a weakness of the kidneys set in. The secretions from those organs were greatly disordered, and annoying me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result." Doan's Kidney Pills for sale by all dealers. Price 50 cents. CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever; the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. IDOL, Winston, N. C."

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.

Lease Stone Quarry For Term of Five Years—Opera House License Reduced to One Dollar a Year—Street Car Company Ordered to Lay New Rails.

A regular meeting of the common council was held at the council chamber last evening. Mayor Richardson being absent, President of the Council Carpenter presided. All the aldermen were present.

The minutes of the previous meeting were read and approved.

The committee on schools, to whom was referred the report of the board of education for May, reported it as being correct and it was placed on file and ordered published.

The bonds of City Engineer P. E. Brown and Municipal Judge Charles L. Fifield were reported as being in due form and sureties good, and they were accepted and placed on file.

The matter of removing the building known as the second precinct polling booth of the First ward from its present location on Terrace street, was referred to the aldermen of the First ward, who subsequently asked that the matter be left with the committee with power to act. Granted.

The application of L. A. Williams to repair the rear half of No. 7 North River street to be used as a stable, the front half to be torn down, was referred to the fire and water committee, who asked for further time to report.

Sixty-two resident tax payers petitioned the council requesting that permission be granted to the Wisconsin Telephone company to replace and maintain a telephone in each of the engine houses and in the office of the city clerk. They argued that they were using that system and did not want to be deprived of quick communication with the fire department and the city clerk's office.

A communication from Manager Alfred Slater was read to the effect that the Wisconsin Telephone Company would replace and maintain its telephones in the engine houses and in the office of the city clerk without any cost to the city.

Alderman McLean moved that the petition be granted.

Alderman Peters moved as an amendment that the matter be referred to the fire and water committee.

Alderman Peters' amendment was adopted, and the original motion, as amended, was adopted.

Alderman Gilkey's favorable report on a batch of bills, was adopted.

The request of the board of education for the annual appropriation having been referred to the finance committee, it was moved and carried that it be referred to the committee on schools.

Ald. Gilkey reported that the ordinances of the city were in such condition that it is advisable that they be revised and printed in convenient book form, and that L. F. Patten be employed to revise the ordinances at an expense not exceeding \$125, under the direction of the city attorney. Report adopted.

Ald. Peters introduced an ordinance adopting the remainder of the general charter law regarding street improvements, a portion of which had already been adopted, giving the council the right to make improvements without the petition of property owners. The ordinance was giving its first and second reading, the rules were suspended and it was put upon its final passage and adopted.

Alderman Peters introduced an ordinance to regulate the use of locomotive engines within the city, direct and control the location of railroad tracks in the streets, regulate the speed of railway trains within the city and require railway companies to construct and maintain at their own expense such bridges, viaducts, tunnels or other conveniences at public railroad crossings as the council may deem necessary.

The ordinance was given its first and second reading and referred to the highway committee.

Ald. Carpenter presented an amendment that he introduced at the last meeting regarding the laying of a joint track on North River street by the Chicago, Milwaukee & St. Paul Railway company and the Chicago & Northwestern Railway company which was referred without reading to the highway committee to act upon.

Ald. Rice presented a resolution that in the judgment of the council it is necessary and for the best interests of the city of Janesville and of the property affected thereby that West Milwaukee street, from the west end of Milwaukee street bridge to the east end of High street, be improved by regutting, repaving and the laying of gutters at the expense of the real estate. Adopted.

Ald. Rice, from the highway committee, reported that a proposal had been secured from Andrew Barron to lease a part of his stone quarry in the town of Janesville, for the term of five years at an annual rental of \$300 per annum, and recommended that the mayor be authorized to execute a lease with Barron on the part of the city of Janesville.

A drinking fountain was ordered erected in the Second ward at a cost not to exceed \$50.

The ordinance reducing the annual license of the opera house from \$150 to \$1, was given its third reading, put upon its passage and adopted.

Ald. Rice, from the highway committee, moved that the rules be suspended and that the ordinance referred to the highway committee at this meeting regarding the improvement of streets be given its third reading. Adopted.

The rules were suspended, the ordi-

Ald. Rice introduced an ordinance requiring the Janesville Street Railway Co. to lay girder rails in the place of the rails now used on that part of West Milwaukee street, between the east line of High street and the west end of Milwaukee street bridge, on or before Sept. 15, 1899.

The ordinance was given its first and second reading, the rules were suspended and the ordinance was put upon its passage and adopted.

The telephone pole in the driveway in front of the premises of Mrs. N. Griswold, on Milton avenue, was ordered removed three feet to the northeast within ten days.

A new sidewalk was ordered in front of the northerly one-half of block 52 (except Horse's lot) in original plat on Court street; also on the south side of West Bluff street, also to clean out the gutter on the east side of Washington street between Ravine street and Mineral point avenue.

The council will meet next Monday evening, July 3rd, to grant saloon licenses and do general business.

CROWDS FROM HERE VISIT MILWAUKEE

SEVEN HUNDRED LEFT DURING THE DAY.

Local Railroad Officials Predict That As Large a Number Will Leave Tomorrow—Milwaukee Is Gayly Decorated From One End of the Business Section to the Other.

Seven hundred people from Janesville left today for Milwaukee to attend the carnival which opened in that city. On the Chicago, Milwaukee & St. Paul railroad Ticket Agent Samuels had disposed of four hundred and twenty-six tickets for the trains that left prior to 10:10 o'clock this morning.

On the Chicago & Northwestern railroad Ticket Agent Smith had sold ninety-eight tickets for the morning trains alone.

On the noon and afternoon trains many more purchased tickets, so that the number easily reached the seven hundred mark.

A good sized delegation who wished to be in the city so as to secure hotel accommodations left yesterday from here.

On the Milwaukee road this morning east and west bound trains were all late on account of the crowds bound for Milwaukee.

At 10 o'clock a special train of eleven coaches arrived over the Milwaukee road from Mineral Point with every seat occupied.

At Monroe, Brodhead and Orfordville vast crowds boarded the trains, causing much delay with the regular running time.

Local railroad officials predict that fully as large a crowd will leave the Bower City tomorrow as Governor Roosevelt will then be the main attraction.

At one minute past midnight this morning the railroads leading to Milwaukee and their connecting lines for hundreds of miles around began selling transportation at one cent a mile, and the early trains were crowded with visitors, who reached the city before the dawn of the first day of the festival. Advertisers from all over the state and from neighboring states indicate that there will be an immense number of visitors in the city today. They will be met at the station by bands of music, and will be entertained with concerts and musical parades as they pass from point to point looking over the city in its holiday attire.

By the arrangements now consummated, Gov. Roosevelt will reach Milwaukee twelve hours earlier than was expected.

There were concerts in the city parks during the afternoon, and the great event of the day will come with the water festival on the lake front this evening. Hundreds of crafts, handsomely decorated and brilliantly illuminated, will sail about the bay, while myriads of Roman candles will be sent up from their decks.

BLINDNESS IN SPAIN.

Experts Declare It to Be Due to Lack of Foresight.

The large proportion of blind people in Spain has attracted attention since the beginning of the present century. The subject is again brought up by an article of Privy Councillor Hirschberg in the German Medical Weekly, giving the results of his recent observation in Spain, where he attended the Hygienic Congress. He says the streets of Madrid swarm with blind beggars; the further south he went the more blind he met. The proportion in Spain as given in the census of 1880 is 11 to 10,000, against 8 to 9 in Germany, France and England, but that figure is considered undoubtedly false by continental authorities. More recent figures give 14.8. The chief cause of blindness in Spain are inflammation of the eye of infants, granulation and smallpox. The widespread fatalistic attitude of the sick, the lack of governmental oversight, and the small attention paid to disease of the eye operate to increase the number of blind in Spain. There is not a single public eye hospital in Spain, according to Dr. Hirschberg, only wards in general hospitals and private institutions.

ROCK COUNTY SHOW

WRECKED BY WIND

EVANSVILLE AGGREGATION HAVE HARD LUCK.

At Sheffield, Iowa, a Small Cyclone Struck the Main Tent and Two Men Were Killed—Cages and Tents Were Blown Over—Circus Returns to Be Again Fitted Out.

George Hall's circus, which left Evansville for a trip west in April, is again back in Rock county home, and is now being put in shape for a fresh start.

At Sheffield, Iowa, the show encountered a wind storm and in less time than it takes to tell it, the entire show was one mass of ruins. The proprietor thought it best to return to repair damages.

After leaving Evansville the show made for Iowa and enjoyed a good business. At Sheffield the show played to a good sized audience in the afternoon; but towards evening a severe wind commenced to blow and when the evening performance was well under way a cyclone occurred, lifting the main tent in the air, and carrying several large poles with it.

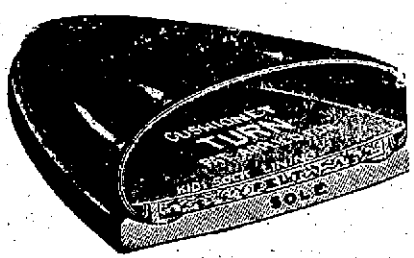

The tent contained many people and in their wild scramble to escape many were injured. Two men connected with the show were so badly injured that they died soon afterwards.

In the animal tent cages were up-turned and broken, but fortunately none of the animals escaped or were injured. The damage wrought will foot up a large sum.

After being fitted out the show will again proceed to the Buckeye state.

Heaviest square edges ever shown on fine turn shoes. Uppers are protected; will not rip and will outwear any ordinary shoe.

The felt cushion is stitched to a heavy canvas which is then covered by the kid sock lining so that the foot does not come into contact with the felt and there are no complaints regarding these shoes being too warm for summer wear. The advantages are in the heavy soles and heavy lining forming a much better treading surface and in keeping the feet up and away from the ground.

The Felt Cushion Conforms to the shape of the foot.

We have secured exclusive sale of these shoes.

White Star COFFEES are Pure.

The importance of a perfectly pure coffee cannot be overestimated. Coffee should be a beverage, not a drug. Nature intended it as a beverage, therefore its preparation should have this thought in mind. Good coffee, well made, is in no wise injurious, but on the other hand is a necessity. White Star Coffees are the products of carefully cultivated varieties that have been harvested, cured, roasted, blended and packed on scientific principles, and as a result are perfectly pure. Costs but little more to have pure coffee than the impure, and the amount of good to be derived is incalculable. White Star coffee sells at from 20 to 38c a pound. Try a sample pound.

LATE NEWS BY TELEGRAPH.

BOERS ARE FAIRLY WARNED.

Chamberlain Denounces Misgovernment in the Transvaal.

TIME FOR ACTION VERY NEAR.

British Prestige Among the Natives Interfered with by the Action of the Boers—Queen Victoria Present at a Review of Troops.

London, June 27.—Mr. Joseph Chamberlain, secretary of state for the colonies, made an important speech at Birmingham last night in reference to the Transvaal crisis, the kernel being a declaration that the government accepted full responsibility for all that Sir Alfred Milner, British high commissioner to South Africa, had done, and was determined to support him.

Mr. Chamberlain contended that the misgovernment of the Transvaal was "a festering sore, that was poisoning the whole political atmosphere of South Africa." The manner in which British subjects were oppressed and harassed, he said, interfered with British prestige among the natives, who now regarded the Transvaal as the paramount power in that part of the world. The position could not be allowed to remain indefinitely as at present.

Mr. Chamberlain added that he did not believe anybody in Great Britain wished to quarrel with the Transvaal, but a vast majority recognized that the substantial grievances of the outlanders must be redressed. If he might judge from the European and American press, he believed that if President Kruger remained unapproachable to argument he would not have a single supporter in the civilized world.

Army Review at Aldershot. London, June 27.—The queen and many princes and princesses were present on the famous plains of Aldershot Monday to witness a review of over 18,000 of the best troops in the kingdom. This review is interpreted in London as a means of satisfying Queen Victoria that her troops are ready for any emergency they may be called upon to meet—in the Transvaal or elsewhere.

CONGRESS OF WOMEN OPENS.

Countess of Aberdeen Welcomes the Delegates to London.

London, June 27.—The international congress of women was opened in the church house, Westminster, Monday afternoon. The hall was filled with brightly costumed women.

The Countess of Aberdeen, the president of the international council, delivered a speech of welcome to the delegates, in the course of which she gave a history of the women's movement for the past fifty years, which had produced a revolution in the position, responsibilities and opportunities of women. The fact that women were now banded together as apart from men, she said, must be regarded as a temporary expedient.

After the address of the countess the delegates were presented to her and also to the vice-president, Mrs. May Wright Sewall of the United States.

UNITE TO BEAT THE STRIKERS.

Fort Scott, Kas., June 27.—A conference of the attorneys representing the "Big Four" coal companies has just closed at Col. J. H. Richards' office here of the Missouri Coal and Mining company, and it is understood that the companies have decided upon a combined policy against the strikers. The injunction method was found to be practicable, and the Kansas and Texas company followed the example of the Missouri Coal and Mining company and the Central Coal and Coke company and secured injunctions restraining the miners from interfering in any way with their men or property.

NO MORE GAMES AT CLEVELAND.

Cleveland, June 27.—Cleveland will not see any more league baseball this year. No more games will be played here after the series with Boston closes, July 1. The cause, President Robinson says, is the refusal of nearly every club that has played here this season to return, owing to the poor attendance. This year the gate receipts at the grounds of the Cleveland club have not averaged much over \$25 a day. All the Cleveland games will be transferred to other cities.

ALASKA BOUNDARY DISPUTE.

British Government Is Expected to Make the Next Move.

Washington, June 27.—The negotiations concerning the Alaska boundary modus vivendi have been renewed in London on the basis of a new note from the United States.

It was reported that this government had rejected the proposition submitted last week by Great Britain, the substance of which was not made public, but the report could not be confirmed. A prominent official familiar with the course of negotiations said: "It is now up to the British government." He would not explain what he meant by that remark. It is not probable that the United States has submitted any new propositions.

The last proposals of this government embraced only slight modifications of the plan of Great Britain for prescribing a provisional boundary, and it was said at the time that the United States government had reached the limit of its concessions.

Mrs. McKinley Is Ill.

North Adams, Mass., June 27.—On account of the illness of Mrs. McKinley the president and his party left for Washington Monday evening at 7:30 o'clock. Mrs. McKinley has been suffering from a cold almost from the time of her arrival at William B. Plunkett's home in Adams, and has not gone out. She has not recovered, as was expected, and although her illness is not at all serious, it was thought that she would be unable to recuperate quickly until she was again in the White House.

More Violence at Cleveland.

Cleveland, Ohio, June 27.—As a result of the Big Consolidated Street railway strike there were more scenes of violence Monday. A non-union crew which started with a Willson avenue car for Newburg was waylaid by a crowd in Fremont street, near Tod street, and before the trouble was over the motorman fired a shot at the crowd. As soon as the police learned of the riot they started to look for the motorman. Before they found him he gave himself up and was locked up on a charge of violating the firearm ordinance.

Enormous Patent Issue.

Washington, June 27.—The largest aggregate issue of patents, trade-marks and labels since April 29, 1890, will be that of Tuesday, June 27, when 693 cases will be favorably passed on by the patent office. Commissioner of Patents Deyell said that the money receipts of the office are now averaging about \$5,000 per week larger than in any of the corresponding weeks of 1898. About 5,000 applicants are now awaiting action.

Four Die of Fever.

Santiago, Cuba, June 27.—Since the outbreak of yellow fever here there have been, until Monday, eleven deaths and thirty-five cases. Two new cases were reported Monday and four deaths. The percentage of deaths shows that the disease is of a more malignant type than usual. The soldiers in camp south of the city are in good health.

A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then run his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. Strike at Chicago Stockyards.

Chicago, June 27.—Strike figures in the stockyards have reached the 3,000 mark, and it is said will shortly be greatly augmented. Hog killing was practically at a standstill yesterday, and little work was done in the slaughtering department of Armour & Co., Libby, McNeill & Libby and Nelson Morris & Co. Men who have been through several strikes in the stockyards said last night that indications were that July 1 would see a complete tie-up in all departments unless there was quick action on the part of the packers.

Cubans Would Help Themselves.

Havana, June 27.—A private telegram of very doubtful authenticity received from Porto Principe declares that a mob of insurgents, after delivering their arms to the paymasters Monday, tried to rush Col. Moale's escort of a dozen regulars on guard over the money chest and the surrendered rifles. The soldiers stood their ground, it is said, firing into the throng, killing ten and wounding many more before the charge was checked. The story is unconfirmed by any report of Col. Moale, who is in charge of the distribution.
